

Sheep Placenta

✓ Why it's good for your skin?

Sheep Placenta extract provides a rich source of skin nutrients to revitalise and moisturize the skin. It contains rich amino acid, Vitamin E and Vitamin B, and various minerals such as calcium, phosphorus, iron, zinc and copper.

Not only rich in nutrients, it also contains "GROWTH FACTORS" which can play an important part in keeping your skin healthy. Growth Factors are proteins that regulate cellular growth, proliferation and differentiation.

They penetrate into the epidermis and dermis of skin, accelerate the skin turnover and promote the formulation of collagen and elastic fibres. This can help rejuvenate your skin and give a firmer, smoother complexion.

✓ Why Sheep Placenta?

There are a few varieties of Animal Placenta extracts but the advantage of using "SHEEP Placenta" is that its structure of the amino acid is similar to humans and its ability to penetrate the skin for maximum absorbtion.

✓ New Zealand Sheep Placenta

New Zealand Sheep Placenta comes from healthy sheep that graze in the wide open pastures of Clean Green NZ farmland. Infinite Beauty fresh placenta is sourced and held in a Hygienic MAF (NZ Ministry of Agriculture and Forestry) Approved environment, snap frozen and processed in an approved Laboratory on demand. This ensures that it is free from all contaminants and is 100% pure.

Infinite Beauty

Infinite beauty is a range of products developed to enhance your body's natural beauty and help sustain its wholesome looks for longer. Our name, "Infinite Beauty" is more of a statement of intent and what we strive to achieve in every product we produce. Our logo is a reflection of the Maori heritage we have in New Zealand and represents two "Infinite" twists as depicted in many maori carvings to show the Eternity of life.

Infinite Beauty
by NatureTouched

Formulated using New Zealand
Advanced PLACENTA Protein

Made in New Zealand

Infinite Beauty is a range of premium skin care products formulated using New Zealand Advanced Placenta Protein. Combined with the finest mixture of active ingredients, chosen to deliver nutrients to the skin and accelerate skin turnover to assist in providing a more youthful looking, and revitalised complexion.

What is the secret of younger looking skin?

**Radiant
Brightness**

**Moist &
Elasticity**

**Smooth
Texture**

The Sheep Placenta we use is sourced in a sterile, hygienic environment, MAF NZ Ministry of Agriculture and Forestry approved, snap frozen and processed in the laboratory on demand. This ensures that it is free from all contaminants and is 100% pure.

Active Whitening **Placenta SERUM**

Infinite Beauty Placenta Serum provides a superior skin whitening treatment with a blend of Alpha Arbutin and New Zealand Kiwifruit seed oil. These ingredients help assist in the fight to prevent aging spots and blemishes developing in the skin whilst delivering nutrients to the skin for a healthier and more radiant complexion.

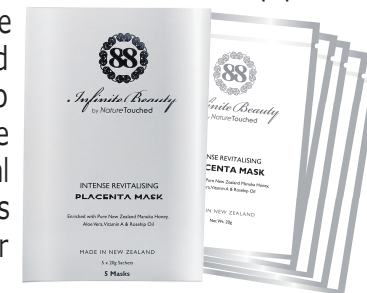

Enriched **Placenta Crème**

Infinite Beauty Placenta Crème is a powerful formulation with Growth Factors of both Placental protein and Deer Velvet extract. These may assist cell regeneration to further enhance the hydration and elasticity of the skin.

Intense Revitalizing **Placenta Mask**

Infinite Beauty Placenta Mask contains some of the finest New Zealand active ingredients including Pure NZ Manuka Honey. This together with a base of NZ Sheep placenta extract helps to penetrate the skins inner layer and provide nourishment to revitalise tired skin while enhancing the skins natural elasticity and suppleness for a smoother and firmer appearance.

Enhanced with a selection of premium ingredients.

Alpha-Arbutin is effective in controlling tyrosinase and inhibits the generation of pigmentation after UV exposure. It will promote an even and lighter skin tone.

Kiwifruit Seed Oil is a rich source of Vitamin C & E and essential fatty acid that may help aid in the prevention of the aging of skin.

Royal Jelly contains a variety of vitamins and nutrients that are used in both the regeneration of skin and the creation of collagen. Its moisturizing properties will help protect skin from dehydration and reduce inflammation.

Deer Velvet is a rich source of trace elements, minerals, selenium, amino acids and collagen. It can benefit restoring and treating damaged skin.

Rosehip Oil has many anti-oxidant properties. These fatty acids are ideal for moisturizing the skin and help to carry nutrients deep into the layers of the dermis.

Manuka Honey is known for its natural antibacterial properties. It soothes inflamed skin while healing blemishes. It also helps balancing the skins pH, promoting the structural growth of collagen in skin cells.
